## FOOTBALL SQUAD FAST ROUNDING INTO FORM

Show Well in Scrimmage Against Delaware—Better Material and Easier Schedule Than Last Year—Season Opens Against Virginia October 1st.

Twenty husky lads, wearing the Buff and Blue, have reported to Coach Bryan Morse out at College Park, Md., and are making long strides toward that time when they will form important parts of a well oiled football machine. With the assistance of William Quigley, former University of Pennsylvania halfback, the Hatchettes' mentor is teaching the squad the fine points of football and many of the new men, as well as last year's veterans, are showing the making of future stars.

At present Capt. Harry Hawley, John Loehler, "Gill" Walter, and Bailey Springston are the only ones of last year's letter men who have reported for duty, but several others are expected in the next few days. With these stars from last year's team and with many new men who show promise, the outlook for a good year on the gridiron is exceedingly bright.

Of the new material, "Red" Scofield, from the Navy Yard's star team of last year, seems to be the best. He is short and stocky, but shows an ability to pick his holes and dodge tackles in a manner to delight the heart of any coach. Shaw and Wells show great ability at ends, while "Al" Connolly, Jawish, Wheeler, and Banville should help to make a line difficult to pierce. Richmond, last year's second-string quarter, Earl Manson, who was injured early in the season last year, and "Ham" Owens also show ability as ground gainers.

### Put It Over Delaware.

Last Saturday the team had its first scrimmage against Delaware College. Delaware, which had been practicing afternoon and morning for two weeks and scrimmaging almost daily, was easy for the Morsemen in their first real taste of battle. For, despite the fact that the Hatchettes had rather a makeshift line, they three times marched the length of the field, and on the defense they were equally strong, holding the Delawares at all points. Our team lined up as follows: Quarterback, Springston; halfbacks, Owens, Scofield; fullback, Manson; ends, Shaw, Loehler; tackles, Connolly, Wheeler; guards, Chesley, Wells, Richmond; center, Radcliff.

On the offense the entire G. W. team showed especially well. Little Red Scofield and Bailey Springston bore the brunt of the ground gaining and many times carried the ball for 10 and 20 yards around end or off the tackles. At the aerial attack Loehler showed that height is a good thing for an end to have by many times snaking passes out of the ozone.

After about 20 minutes of roughing it, the ball was given to Delaware to

(Continued on page three.)

## ESTABLISHES MEDICAL R. O. T. C. AT UNIVERSITY

A medical corps unit of the Reserve Officer Training Camp is established in this school by authority of the Secretary of War, and Maj. Eugene G. Northington, an officer of the medical corps of the army, is detailed to the University for supervision and instruction of the students in the unit.

Any student who remains in the unit for the four years of his medical course receives in the last two years pay to the amount of \$409, or an average of \$17 per month. There are no military drills, the members of the unit are not under military restraint, no uniform is worn in the school, and there is no obligation as to military service after graduation.

The instruction in the unit is divided into two courses of two years each and consists of one hour per week of instruction in medico-military matters, additional to the regular hours of medical teaching.

Students who satisfactorily complete the first two years may, if they elect, enter the advanced course of two years, during which they receive pay, are obligated to complete the course and to attend one summer camp of instruction for six weeks, to which the student will receive travel pay of 5 cents per mile and return to his home, and during which he will have all camp requirements provided, including uniform (only worn in camp), other necessary articles, medical attention if necessary, and pay at the rate of \$30 per month.

## SUMMER SCHOOL FIGURES; REGULAR TERM PROSPECTS

The faculty, student body, and many friends of the University concur in expression of their pride in, and satisfaction with, the noteworthy success of the Summer School. The Department of Arts and Sciences reports an enrollment of 869 students, or an increase of 11 per cent over the enrollment of the 1920 Summer School. The Law School enrolled 421 students for the first session and 52 more for the second, with a net total of 473. This number represents an increase over the 1920 Summer School enrollment to the extent of 75 per cent.

As regards the coming regular session, the Department of Arts and Sciences predicts a substantial increase over the number attending the last regular session, 2,934 students. The Medical School will accommodate 65 new students, already having received applications in excess of that number. The Law School expects an enrollment of approximately the same number as that of last regular session, which totaled 898.

## MANY ACTIVITIES ARE PLANNED FOR THE YEAR

Athletic Outlook Brighter; Must Have Student Support for Success.

George Washington University starts the second century with an especially bright outlook for all student activities. Football men have been hard at work since the 8th of September out at College Park, Md., under the direction of Head Coach Bryan Morse, preparing for an interesting schedule of eight games, four of which are to be played at home. Many new men of ability have come out that were not on the squad last year, thus giving promise of a much better team this year. Mr. Morse will be greatly aided in rounding the team into shape, for he has acquired the services of William Quigley, star halfback of the University of Pennsylvania team of 1917. An other addition to the coaching staff is expected shortly in the person of Ted Chadwick of Yale. The team should finish the season with more wins than defeats.

Soon after the curtain drops on the gridiron warriors, Capt. Jack Daily, guard of last year's basketball team, will lead the basket tossers into the limelight. Daily's men should have a successful season, as every one of last year's men is expected to return. Manager F. L. Hurley is arranging an interesting schedule of games.

The swimmers expect to duplicate their remarkable record of last year, even though Capt. Granville Dickey is not expected to return. Director Morse has been negotiating for the services of Fred Brunner, coach of the Washington Central High swimmers.

The athletic interests are not the only ones planning for a big year. The Hatchet staff hopes to issue the paper semiweekly instead of once a year, as has been done previous to this year. The only obstacle to the plan at present is, as usual, financial. With proper support from the students, this condition will be remedied inside of a month.

Arthur Nall, editor of The Ghost, which made its debut last February, has announced that The Ghost will be issued eight times the coming year, the first edition coming out about the 25th of October. All stories and jokes of a more or less humorous nature will be considered for publication.

The Cherry Tree, G. W.'s yearbook, will be edited by Robert Karl Peterson, who was the art editor of the 1921 Cherry Tree. His election has insured a Cherry Tree of the usual high standing.

## Notice to Students Enrolling

All students enrolling in George Washington University MUST sign the STUDENT ACTIVITY BLANK, which can be obtained in the department in which they are registering. Fill out the ACTIVITY BLANK and return it to the clerk, recorder or secretary who registers you in the University. No matter how many or how few hours you are registered for, the Student Activity Department MUST know your name, address, class, department and occupation, as well as the various activities in which you are or might be interested as a participant, spectator, or supporter. Fill out the name of the organizations in G. W. U. to which you belong. It is hoped and expected that EVERY STUDENT will sign up for the ACTIVITY TAX, although this is NOT compulsory. Your activity tax in part or as a whole is paid to the Treasurer of the University or persons designated by him. READ THE STUDENT ACTIVITY BLANK, THE HATCHET and THE G. W. U. HANDBOOK.

## DEAN H. L. HODGKINS IS ACTING PRESIDENT

Collier Resigns To Become Minister to Chile; New Professors and Courses.

In a few days the University will open its doors to the old men, and the freshmen will for the first time learn the rules of the games of law, science, medicine, or arts. This opening will start the University on its second century of active educational work.

Numerous changes have taken place on the faculty, and several courses of study have been supplemented since last year. President Collier has resigned his position at the head of the various colleges, and has been appointed Minister to Chile. Prof. Collier has been at the head of the University since 1910, during which time the University has expanded by leaps and bounds. Dean Hodgkins will serve as official head of the University until the Board of Trustees officially select a new president to fill ex-President Collier's chair. No information has been given out by the committee as to who the probable successor will be.

Prof. Lyman P. Wilson has resigned his position as professor of law and has been elected professor of law at Cornell University. Prof. Wilson will be succeeded by Prof. Henry W. Edgerton, A. B., LL. B., who formerly taught at Cornell.

Prof. Albert Levitt, assistant professor of law, has resigned to accept a position on the law faculty at the University of North Dakota. He will be succeeded by Prof. Clarence M. Udegraff, LL. B., graduate of the University of Iowa, who comes to us from the University of Louisiana.

Charles Frankham, who has been associated with the University for the past summer, will continue his lectures on legal liability this winter.

Prof. Van Vleck, who was on leave of absence last year attending the Harvard Law School, has returned and will devote his full time to teaching. He received the doctor of jurisprudence degree from Harvard last June.

Prof. Robert F. Griggs, Ph. D., of the Ohio State University, a man of considerable experience, has been elected professor of botany. Prof. Griggs was leader of the Alaskan expedition of the Geographic Society. He has written extensively on his unique adventures in the frozen northland and especially about the valley of the 10,000 smokes, of which he is the discoverer.

Prof. William F. Partridge will take up duties as professor of architecture. He will be assisted by Prof. Delos Hamilton Smith and Mr. W. H. I. Flemming.

The Domestic Science Department will be in charge of Miss Margaret B. Evans. This is a newly created course in the University and one which is expected to be very popular with the co-eds.

Capt. Hugh Miller, U. S. Army, a man of some distinction and wide experience, resigned his commission in the army in order to be at the head of the Civil Engineering Department.

Professor of Psychology John Metcalf, resigned, will be succeeded by Prof. Moss.

The courses in botany have been greatly revised so that the students may have a much broader field of study and practical work under Prof. Griggs.

## G. W. U. PREDICTED AS GREATER UNIVERSITY

Foresees Growth in All Departments; This Year To Be Greater Than Last; Social Life a Big Factor in University Life.

By HOWARD L. HODGKINS, ACTING PRESIDENT.

On behalf of the trustees and the faculties I extend to all students of the University, old and new, a most cordial greeting and a most earnest hope that this college year may be the most successful and inspiring year of study, and of recreation, of mental

and physical development, of their experience.

The University recently celebrated the close of one hundred years of its life. In this beginning of its second century, it starts the year better equipped than ever to provide for the citizens and residents of Washington, young and old, men and women, that opportunity for study, for intellectual growth, for development of the powers of accurate and logical reasoning, for ability to better appreciate all that is fine in history, in art, in literature, in science.

## VALUABLE PROPERTY IS BEQUEATHED TO G. W. U.

Site on G Street Near Lisner Hall To Be Used for Additional Arts and Sciences Classrooms.

By the will of the late Gen. Maxwell Van Zandt Woodhull, George Washington University has been given and will soon get possession of the house and lot at 2033 G Street valued at \$50,000.

The lot, which is 100 by 125 feet, on the northeast corner of Twenty-first and G Streets, adds 12,500 square feet to the University's G Street plant, which it adjoins, making a total of 70,000 square feet, or nearly half a block, owned by George Washington in this neighborhood.

Gen. Woodhull imposed no conditions as to the use to which the property should be put, but as yet there has been no decision as to what is to be done with it. According to Acting President Hodgkins, the house will most probably be used for class rooms, although it has been proposed to convert it into a library building or to keep it as a residence for the president of the University. As soon as possession is obtained, the fences will be removed from about the grounds, thus greatly enlarging the present campus and giving the students elbow room during the change of classes.

The will provides that the present house or any building erected on this site shall bear a tablet stating that it is the Maxwell Van Zandt Woodhull bequest. The bequest was at the time of his death, and had been for years a trustee of the University. He attained the rank of general during the Civil War.

## TRY-OUT FOR POSITIONS ON THE HATCHET STAFF

Competitive Test for Reporters and Staff Officers To Be Held for First Five Issues.

A try-out for the staff of The University Hatchet commencing with the third regular issue and extending through the first five issues, will be held by the editor.

A meeting of all persons wishing to try-out will be held in the Hatchet office at 8 p. m. October 1st. Each person will be given an assignment which will entail an interview or write-up on some society meeting or athletic contest. This must be typewritten and placed in the copy box within a designated time.

This try-out is not for reporters only, for there are other important positions on the editorial staff open. Some of these include news editor, exchange editor, and editor of humor. The Hatchet will hold a force of 20 news reporters and five sport reporters, three for men's and two for girls'.

There are also positions on the business staff, consisting of assistant business manager, circulation manager and assistants, advertising manager and assistants, yet to be filled. Applicants for these will also meet in the Hatchet office 8 p. m. October 1.

## BID DAYS ANNOUNCED

The Pan-Hellenic Association of G. W. U. announces the following bid days for its sororities:

Pi Beta Phi.....October 12  
Chi Omega.....September 28  
Sigma Kappa.....September 28  
Phi Mu.....October 12  
Theta Lambda Sigma.....October 12  
The Coalition Club.....October 12

The association will hold its meetings weekly, on Mondays.

Eunice Crabtree, Sigma Kappa, and Helen Pabst, Phi Mu, have been chosen president and secretary, respectively, for the year 1921-22.

Our country in these last momentous years, so filled with misery and yet so illumined by deeds of daring bravery, and so full of actions inspired by the holiest and most altruistic motives, has become definitely a world power, with duties and responsibilities that our founders of a century ago did not foresee. To do well the task that falls to us we must have confidence in the present, we must have vision for the future. To prepare for these duties, to become the leaders in the generation that is just ahead, the young people of today must be better equipped in all that is meant and implied in the words learning and knowledge than ever was needed in the past. To this end all institutions of higher learning are dedicated, and none more than our own University, which because of its name and because of its position in the Capital City, is peculiarly pledged.

What is the University? If you consult the catalogue you will find it has a Department of Arts and Sciences, subdivided into the Graduate School, Columbian College, College of Engineering, and Teachers College. It has a Department of Medicine and Pharmacy. It has a Department of Law. It has Summer Schools of Arts and Sciences, of Medicine, and of Law. It has more than 5,000 students. It has had more than 9,000 graduates.

These are statistics. But these are not the University. A University is not a campus, is not a building of brick and mortar. The real university consists of the men and women who form its instructing staff, of the men and women who form its student body, of the men and women who form its graduate body.

In this year, that begins its second century, the George Washington University has a stronger teaching staff than ever before in the history. With the addition of a number of men to its faculties in every department of the University—Arts and Sciences, Medicine, Law—it is better prepared for its work than before. In its more rigid selection of students to be admitted, in its high standards of admission more strictly enforced, it will have a student body better and more evenly prepared to do efficiently the work in the classroom and laboratory. It asks every registered student to cooperate in making these ideals real.

Life is not wholly of the intellect. Man is a social being. An important part of complete development of all powers comes from the social life, from the meeting together in the club, in the fraternity, in the debating society, on the athletic field. The University stands for this full development. The University believes in student activities; it hopes every student will show his interest in his own complete growth, in the growth in influence and reputation of the institution of which he is a part, by subscribing to the Student Tax, and by doing his part in all activities. It can be said with full truth that the new method of managing student activities which went into effect last year was a success. Let us all join this year in making that success still more pronounced. It can be done. It must be done.

At the end of the session let us be able to say, make the records able to record, that this year now commencing has been more successful in knowledge gained, in intellectual power increased, in the development and proper functioning of organizations literary, of organizations social, of organizations athletic than any year in the past century's history.

WASHINGTON, D. C. . . . . SEPTEMBER 23, 1921

## A Greater G. W. U.

Last year was the most prosperous and successful year that George Washington University has had. Being the Centennial of the University's founding, everyone exerted extra efforts to make the social, athletic, and centennial events reach proportions befitting the name of George Washington University after one hundred years of existence. It is our duty now to keep up this advancing and progressing magnitude of activities. We must strive to make this year as big as last, and pave the way for a George Washington that will be bigger, better known, and possessed of a more enthusiastic student body.

This year we will have better organization in the activities representing the school. Through a voluntary system to be employed in obtaining subscriptions for Student Activity Cards, funds will be obtained for the promotion of athletics. There are societies organized in branches of every department of the University and in the schools, uniting the students and bringing them together in a closer social relationship.

It is said that if George Washington grows as much in the next five years as it has in the last it will be one of the largest universities in the country. Let us prove that if as much is accomplished in the next four years as we will in this, this prophecy will be realized.

## Student Activity Tax

The Student Council and the Director of Student Activities will wage this year a campaign for selling student activity tax cards. This campaign will embrace all departments of the University, and every student in these departments. The activity card will entitle the buyer to all athletic privileges and admission to all athletic games, The Cherry Tree, The University Hatchet, and all other social benefits which can be derived from being a student at George Washington University.

In the past year there was a slightly dissatisfied and chronic attitude among a greater part of the students in regard to this campaign. Some seemed to think of it as a "skin" game for the benefit of a few fortunate favorites who alone derived gain from the activities.

This is a grossly false idea which would only be perpetuated in the mind of a student alien to the ideals and morals of George Washington University. The activity tax benefits every student enrolled in the school. Even if the person is unable to attend a single athletic contest or take part in any social activity, there should be a satisfaction in knowing that by his or her meagre helping this activity is allowed to go on. It is to the benefit of every person to sign this tax in knowing that by so doing he is helping the school to become a larger and greater university, that through the enlargement of these interests known as student activities the University will become better known throughout the country.

Last year the medical school put the campaign over on a one hundred per cent basis. Every department of the University, if superintended by the proper heads and entered into in the right spirit, could do the same thing. This year the tax will not be compulsory. The students will be asked to support it but not required. This should induce even more to sign as a moral obligation is far greater than one prescribed by law. The student activity tax campaign is the bread of the University life, and stigma of the heart. Social activities should be subscribed to by every student. See to it that you, yourself, and all your friends have done so, then you can say in part that you are doing something for George Washington University in payment of the great benefit which you derive.

## Support the Team

Our University is putting out a football team this year that will meet other well-known colleges. Twenty experienced and seasoned men have reported and are practicing daily in College Park. The Director of Student Activities is training these men and is giving every atom of his energy to whip them into a winning team, representing George Washington University. Let us this year follow the team with more enthusiasm and give the squad our whole-hearted support. Let us attend the games and really show the fellows our appreciation and admiration for their efforts. Through triumph and defeat let us stand back of our team, respect it, and boost it.

## STUPID STEVE SAYS:

This is an alleged editorial, not because an editorial is necessary, but because everyone else is writing 'em. From the sun-kist shores of the rock-bound coast of Maine never has such a burst of wisdom and etc. enlightened the world. This column or columns is open to the public—kind of an information bureau, so to speak. Whatever you want to know—how many blows in a horn or the color of Cleopatra's eyes—ask Steve, he knows.

Yours till the sphinx shimmies.  
(Signed) STEVE.

Dear Stupid: Who discovered rents?  
INSIPID.  
Dear Insipid: The first man who tried to climb through a barbed-wire fence.

Dear Stupe: How can I get the girl to hang around me?  
ANXIOUS.  
Dear Anxious: Have you ever tried sprinkling gasoline on your handkerchief?

Dear Steven: How far is it from the earth to the moon?  
LONESOME.  
Dear Lonesome: Less than that, depending on the time and the place.

As football commences, the price of flowers, arnica, and wooden legs soars.

Bryan Morse, golf star and movie matinee idol, informs us that all his football team thinks is how long it is till the next meal. In other words, if the other teams were food, G. W. would be unbeaten.

With school about to commence and all the tea-hounds and lounge lizards preparing to shake a wicked hoof, we say, on with the dance; let joy be unrefined.

Dear Steve: How may one beat the honor system?

I. W. W. (I Won't Work).  
Dear I. W. W.: Memorize the textbook.

If you cannot laugh at the jokes of the age, why, then, laugh at the age of the jokes.

One must mourn for the fire escape magnate who was unable to take his invention with him on his decease.

Where there's a will there's a way.  
Where there's a still there's a subway.

Here lies the bones of Eddie McF. Sat down on the business end of a bumbee.

A peach came walking down the street. She was more than passing fair; A smile, a nod, a half-closed eye, And the peach became a pair.

A convict in the Kansas penitentiary has asked the governor for a pardon on the plea that he fears he will corrupt his fellow inmates. He finds, he says, from what the others say, that he is the only guilty man behind the bars.

Blessed be the tie that binds My collar to my shirt. For underneath that silken band Lies half an inch of dirt.

There was a girl from Glynn Who was so exceedingly thin, That when she assayed to drink lemonade, She slipped through the straw and fell in.

Somehow I never think it's right, To leave and merely say goodnight.

### HAD HELP.

"Did your brother die a natural death?"  
"Oh, no. We had a doctor."

### BEFORE AND AFTER.

"You poor boy," said the visitor after watching little Eddie eat. "You're starved, aren't you?"  
"No'm," said Eddie. "I'm always starved before my dinner, but after I've had my dinner I'm only just hungry."

### HE KNEW.

Reporter—And in what State were you born, Prof. Psychoff?  
Professor (learnedly)—Unless my recollection fails me, young man—in the state of ignorance.  
Reporter (scribbling)—Ah, yes, to be sure—and how long have you lived there, professor?—Nebraska Awgwan.

### IN DOUBT.

"Yes, my brother was slightly wounded in the Marne advance. We had a letter from the regimental surgeon."  
"Where was he wounded?"  
"We are not quite sure. The surgeon mentioned the place, but we don't know whether it is an anatomical phrase or a French village.—St. Louis Republic."

### ACCURATE SHOT.

Ensign—See that captain on that bridge five miles away?  
Gunpointer—Aye, aye, sir.  
Ensign—Hit him in the eye with a 13-inch shell.  
Gunpointer—Which eye, sir?

### STEADY JOB.

Hardup—Here's that little bill you owe the doctor. He's commissioned me to collect it.

Hardcash—He has, eh? Well, I'm glad you've got a permanent job at last, old man.

### CHEMICAL LOVE.

Said Atom unto Molly Cule:  
"Will you unite with me?"  
And Molly Cule did quickly retort:  
"There's no affinity."  
Beneath Electric light plant's shade, Poor Atom hoped to meet 'er.  
But she eloped with radical Base And now her name's Salt-Peter.  
—The Chemist.

### NOT THE RIGHT NOISE.

"I want to return this automobile honker."  
"Isn't it all right?"  
"It might be for some people, but not for me."  
"Man alive, I'm a doctor and this blooming thing makes a noise like 'Quack! Quack!'"

50—50.

A burly Irishman was brought into a base hospital pretty well "shot up." After giving his name, the doctor asked him, "You're an Irishman?"  
"Half o' me, sir," he replied.  
"Half of you?" asked the doctor in surprise. "And what's the other half?"  
"German, sir," was the reply. "German shrapnel, bits of iron, and holes."

### REVENGE.

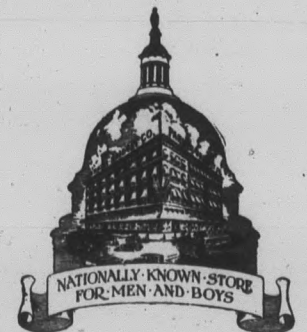

The druggist danced and chortled till the bottles danced on the shelves. "What's up?" asked the soda clerk. "Have you been taking something?"  
"No. But do you remember when our water pipes were frozen last Christmas?" "Yes, but what—" "Well, the plumber who fixed them has just come to have a prescription filled."

### WISE PRECAUTION.

Anent a mad dog scare, a Fort Collins newspaper recently produced the following: "The owners of dogs are keeping their dogs tied up to avoid the animals being bitten or shot by the police."—Laughing Gas.

### A PROFESSIONAL OPINION.

First M. D.—Has he any deep-seated trouble?  
Second M. D.—Yes; a wife waiting for him in the subway station.

## MORSE ASKS STUDENTS TO SUPPORT ACTIVITIES

Director Points Out Necessity of Back-  
ing Up Plans With Pledges At  
the Start of This Year.

"The success of all student activities at George Washington depends upon the way the students support the activity tax this fall." This, in brief, is the substance of what Bryan Morse, director of student activities, has to say of activities this year.

"There is no real reason why George Washington should not lead in all athletic as well as other intercollegiate activities. In order to support all activities, to foster the various organizations, to build up a real and lasting spirit, all students should solidly back their activities with pledges," says the director.

"It is not as though a person were giving a sum of money for the support of activities. Upon payment of ten dollars the student receives admission to all home athletic contests, The Hatchet and Cherry Tree, as well as medical attention, a considerable return for the money invested.

"For the payment of ten dollars in voluntary pledges students will more than get their money's worth.

"George Washington is going ahead, and the students will do their share and more to make the proposition a success. The various organizations which represented the University made a first-class start last year under conditions which were not propitious.

"Despite contracts which were not advantageous, the entire year was weathered with considerable progress made. The Cherry Tree, The Hatchet and the Ghost were above the average of other years.

"George Washington was represented in more activities than any other institution in this section. Football, basketball, freshman sports, tennis, track along athletic lines and in many other ways familiar to the students.

"The turning point in the history of student activities is reached again at this time. Success will follow the efforts of those interested in placing the University out front as a representative institution if the students back the activity tax by signing their names and paying.

"Many persons ask why there is no compulsory student tax. That is a matter which is absolutely in the hands of the students. If all students at G. W. U. signed the activity tax blank and paid, there would be no real reason why a compulsory tax should be levied.

"The way to get a compulsory tax through the University is to sign the tax blank and pay up and see that your neighbor does the same.

"It is to be hoped that all students cooperate this year in helping to make considerably more progress. In football, immediately at hand, the team has been practicing since September 8. I can say that the football team this season will be greatly superior to that of last season.

"I am making a direct appeal to all students to use their influence in making this a big year. The only way to do that is to subscribe immediately with funds sufficient to allow the development of the recognized and legitimate student activities."

## FOOTBALL SQUAD FAST ROUNDING INTO FORM

(Continued from page one.)  
see what they could do in the attack. At every point they were met by a stone-wall defense. Here it was that Al Connolly showed himself a pillar of strength by his deadly tackles. Wheeler, the other tackle, was rather green, but with plenty of practice should develop into a good linesman.

### Schedule Looks Easy.

With a much easier schedule than last year, and with better facilities and material, it looks as if G. W. U. should finish with more victories than defeats to her credit when the curtain drops on the season, Turkey Day. On October 1st the Hatchetites play their first game, being the guests of the University of Virginia at Charlottesville, Va. This game will undoubtedly be the hardest game of the season. The following week, on the 8th, G. W. entertains Western Maryland. Last year Western Maryland was lucky to tie the Morsemens, and this year they will be lucky to hold the score down. The 15th, William and Mary will be met at Norfolk, in which will probably be the closest game of the season. After that the Buff and Blue wearers journey to Philadelphia, where they will draw conclusions with Drexel Institute. The question in this game will be how big a score G. W. can run up, for Drexel lost to Western Maryland last year by a one-sided score. Seven days later a battle royal will be staged, when the sons of George Washington meet their ancient rival, Georgetown. The game is to be played at home, and every student should be on hand to help the pride of the school by their lungs in the cheering section if not by their brawn on the field. After that Washington College, Chestertown, Md., and Gallaudet College, of this city, should be easy.

All of the boys on the team from the captain down to the waterboy look forward with pleasure to Thanksgiving Day, when they will be given an opportunity to reap sweet revenge from Catholic University for their defeat of

last year. And when that game is over and the smoke of battle has cleared, we hope to hear C. U. holler "Nuff."

## LUNCHEON TENDERED TO G. W.'S FRESHMAN GIRLS

It has been the custom from time immemorial for the upperclass girls to welcome the co-eds of the freshman class at a luncheon given in their honor. This year, following tradition, the affair will be held on Saturday, October 8. The north campus will be the scene of the celebration.

The luncheon, to which all freshman girls are cordially invited, will be given under the joint auspices of the Women's University Club and the Woman's Legal Club.

According to Sphinx Honor Society, which is in charge of arrangements, there will be several special features. Song and cheer practice will bring the party to a close, after which the girls will be urged to go direct to the football field en masse for the first home game.

## COMMITTEE MAKES PLEA TO ALUMNI

Class Cooperation in School Activities  
Urged; Tax Campaign to  
Enhance Them.

The Alumni Association of George Washington University has appointed the following men to the Student Activities Committee: John Paul Earnest, chairman, C. C. Calhoun, Carl A. Mapes, Mrs. Joshua Evans, jr., Miss Martha McGrew, Gilbert L. Hall. The first move of the committee is to send out the following letter to all alumni of G. W. U. living east of the Mississippi:

"To all George Washington alumni:  
"Do you know that George Washington is making tremendous strides in student activities? Look over the enclosed list and see how varied these activities are, and how wide an appeal they make to the student body. See, too, how well they merit alumni support.

"Your committee is enclosing here with an Alumni Privilege Card numbered and charged to you. There is also enclosed a football schedule showing four home games, including one with Georgetown University October 29 and one with Catholic University Thanksgiving Day. Mark those dates on your calendar right now. Besides, there will be eight basketball games and two track meets, to say nothing of baseball and tennis, at home. Your card will admit you to all of these. It will also entitle you to The Hatchet. Summed up, it means four football games, \$6; eight basketball games, \$4; two track meets, \$1; The Hatchet, \$2, a total of \$13. Your ticket will cost you five dollars. Send your check to the Treasurer, Student Activities Committee, in the enclosed envelope today, and keep and use your ticket.

"Remember, all funds collected from sale of tickets to alumni will be deposited in the student activities fund and be used for the support of all student activities. We need your cooperation. Write that check now.

"JOHN PAUL EARNEST,  
Chairman."

## STUDENT ORGANIZATIONS AWAIT NEW PATRONS

Many Inducements in G. W. U. for Socially Inclined; Bulletin Boards Give Meeting Dates.

Where could a student find a greater number of accredited activities with which to become affiliated than here at G. W. U.? No matter what the student may be interested in, there is sure to be an organization in which he will be interested and of which he may become a member. No matter whether the subject be chemistry or dramatics, music or architecture, there is sure to be some society already underway which will be only too glad to receive the student's interest and support. The student has only to attend a meeting of that particular organization in which he is the most interested to find a ready welcome awaiting him. A few of the organizations which should be of general interest to the student body are:

- For the architect—  
The Architectural Club.
  - For the artist, illustrator, or cartoonist—  
The Art Society.
  - For the chemist—  
The Chemical Society.
  - For the student of Spanish—  
El Circulo Espanol.
  - For the Engineer—  
The Engineering Society.
  - For those of literary tastes—  
The Enosinian Society.
  - For the musicians and songsters—  
The Glee Clubs.
  - For the journalist—  
The University Hatchet.
  - For the Mason—  
The G. W. U. Masonic Club.
  - For the actor or actress—  
The G. W. U. Players.
  - For the woman lawyer—  
The Woman's Legal Club.
  - And for the women of the University—  
The Women's University Club.
- Find out from the bulletin boards when YOUR organization is going to meet, and come out prepared to take an active part. You'll benefit by it, and so will the University.

## LAW SCHOOL SHOWS GAIN IN NUMBERS

Second Largest Among Members of  
Association of American  
Law Schools.

The George Washington University Law School has just completed its sixth Summer School. For the first time two summer sessions were held, each of six weeks duration. The attendance showed a remarkable increase over former years, 421 students registering for the first session alone and over 50 more entering at the beginning of the second term.

The summer courses were conducted by the regular Law faculty, with the exception of the course given by Charles Frankham, A. M., LL. M., who is engaged as special counsel to the Attorney General.

There have been few changes in the Law faculty for the coming year. Profs. L. P. Wilson and Albert Levitt have resigned, and to fill their places Prof. Clarence M. Updegraff, LL. B., and Prof. Henry W. Edgerton, A. B., LL. B., have been appointed. Prof. W. C. Van Vleck, who was on leave of absence last year, has returned and will devote his full time to teaching.

The fifty-seventh year of the Law School begins on Wednesday, September 28. Registration is now under way, and present indications are that the enrollment will exceed the record last year of 898 students. This was the second largest enrollment among the schools which are members of the Association of American Law Schools, Harvard Law School only exceeding this number.

On the evening of Wednesday, September 28, a reception for the new professors and the entering students will be held. Following a short program, which begins at 8.30, there will be dancing for several hours. All the arrangements are in the hands of the Law School Senate.

## FROM THE AVENUE AT NINTH

*"Summa Cum Laude"*

College men whom we serve (may their tribe increase) are unanimous in their opinion that P-B essentials and accessories pass the tests of wear and style "with high honors." We hold to the theory that in college, as in other important pursuits, it is wiser to be well dressed than dressed up.

The curriculum of college clothes presents this Fall many new ideas in suits, shoes, shirts, socks and chapeaux, and we bespeak with pleasure the honor of your attendance at our exhibits. Opposite we list several matters of moment to college men to prove the anomaly that lower prices accompany higher quality this season.

*Parker-Bridget Co.*
